

Masibambane

Masibambane CHRU
HIV Counseling and Testing Project for Couples

MASIBAMBANE is a Voluntary Counseling & Testing (VCT) project that encourages couples to know their HIV status.

WHY TEST TOGETHER?

- Supporting one another
- Planning the future together
- Planning to have children
- To increase the understanding of HIV/AIDS impact at a personal and family level
- Treatment and care decisions can be made together

WHAT WILL HAPPEN ONCE YOU HAVE TESTED?

- If both HIV tests are **NEGATIVE**, we will assist you with counseling to remain HIV negative.
 - If both HIV tests are **POSITIVE** we will assist you with counseling and referral for medical assessment.
 - If the tests have different results
 - one test HIV **POSITIVE** and one test HIV **NEGATIVE** - we will assist you with counseling and referral for medical assessment .
- In addition, we may ask you to participate in a clinical trial (HPTN052)
