

HIV Prevention Trials Network**Clarification Memo # 1 to:****HPTN 083-01:****Safety, Tolerability and Acceptability of Long-Acting Cabotegravir (CAB LA) for the Prevention of HIV among Adolescent Males – A sub-study of HPTN 083****DAIDS Study ID: 38654****Protocol Version 3.0, dated 2 July 2021****Date of Clarification Memo: 18 May 2023**

The items clarified in this Clarification Memorandum (CM) have been approved by the DAIDS Medical Officer and are to be implemented immediately upon issuance. Institutional Review Boards/Ethics Committees (IRBs/ECs) approval of this CM is not required by the sponsor; however, investigators may submit the CM to the IRB/EC overseeing the study at their site for information. This CM is official HPTN 083-01 documentation and is effective immediately.

This CM and all related IRB/EC correspondence must be retained in the site regulatory file and in other pertinent files. Protocol registration approval is not required by DAIDS for CMs.

If the full HPTN 083-01 protocol is amended in the future, the changes in this CM will be incorporated into the next version.

Summary of Revisions and Rationale

1. Protocol roster changes

Deletions to the protocol text are indicated by ~~strikethrough~~; additions are indicated in **bold**.

Revision 1: Protocol roster
