

SAHPRA Revises GCP Training Requirements and Issues Clinical Trial Application Guidance for Public Health Emergencies

On April 13, 2020, the South African Health Products Regulatory Authority (SAHPRA) issued [GCP Training and Expedited Review of Clinical Trial Applications during COVID-19 Pandemic](#). The notice states that SAHPRA has amended requirements for in-person good clinical practice (GCP) training to allow for online training during the COVID-19 pandemic. The notice also states that SAHPRA is committed to reviewing COVID-19 clinical trial applications within 7 to 10 working days and refers applicants to the newly released [Application to Conduct a Clinical Trial: Guidance in Conditions of a Public Health Emergency](#).
