What Does Ending the Epidemic Mean?

NYC's Strategy and Programs

The New York City EtE Plan: Strategies to Address Disparities

1. Transform City STD clinics into:
 - a. “Destination Clinics” for Sexual Health Services
 - b. Efficient Hubs for HIV Treatment and Prevention
2. Launch PrEP and Repair the PEP Delivery System
3. Make NYC “HIV Status Neutral”
4. Support Priority Populations Using Novel Strategies
5. Take NYC Viral Suppression from Good to Excellent

Transform City STD Clinics into “Destination Clinics” for Sexual Health Services

- ✓ Expand hours, improve triage
- ✓ Restore screening services for asymptomatic clients
- ✓ Enhance HPV-related services
- ✓ Offer *Quick Start* contraceptives
- ✓ Engage with community to improve services for priority populations

Transform City STD Clinics into Efficient Hubs for HIV Treatment and Prevention

BIOMEDICAL EVALUATION AND INTERVENTION:
Instant Starts of ARV Treatment and Prevention

SOCIAL WORK ASSESSMENT:
Social Determinants, Insurance

NAVIGATION TO LONGITUDINAL CARE:
For both HIV Negative and Positive Clients

STD Clinics: Now Efficient Hubs for HIV Treatment and Prevention

NYC PLAYS SURE

WHATEVER YOUR PLEASURE, WHEREVER YOU ARE, ALWAYS BE READY TO PROTECT YOURSELF FROM HIV AND STD

#PLAYSURE

NYC BRINGS YOU THE NYC PLAY SURE KIT

An easy way to carry the right protection combination that works for you.

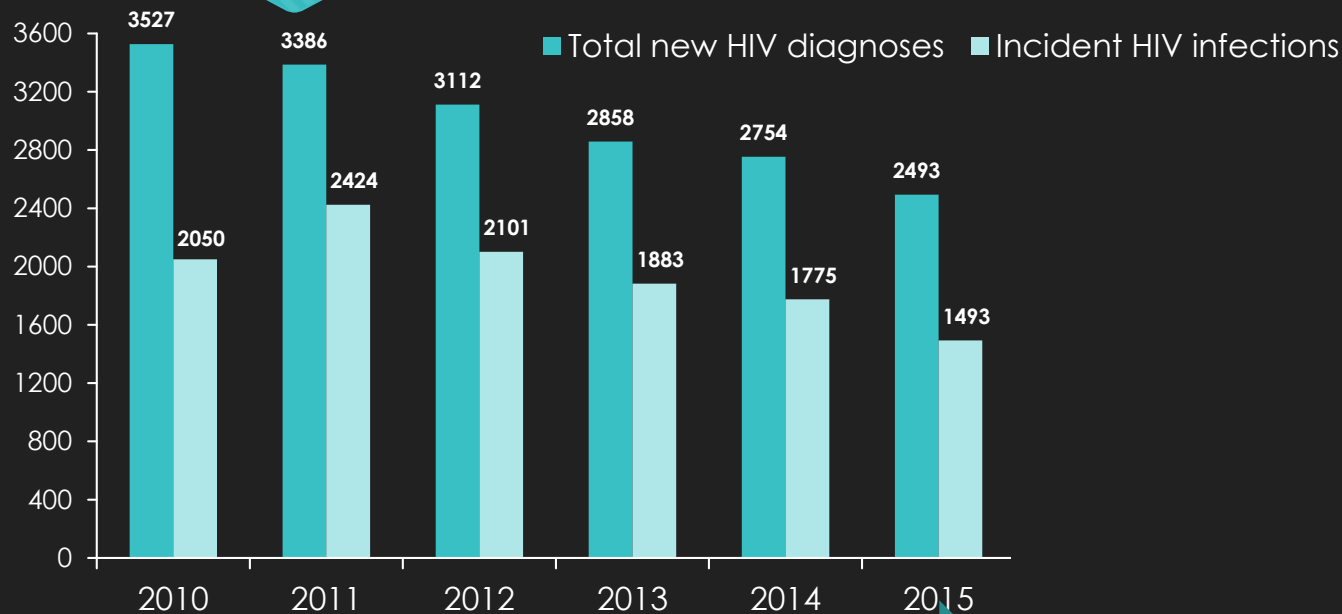

PLAY SURE: Call 311 or visit nyc.gov/health to design the right HIV and STI prevention combination for you.

NYC Health

Next Steps

Achieving EtE GOALS: New HIV Diagnoses and Estimated Incident HIV Infections, NYC, 2010-2020

The number of new HIV diagnoses from 2010 to 2015 was reported to NYC DOHMH as of June 30, 2016. Incident HIV infection estimates from 2010 to 2015 were calculated using the CDC Stratified Extrapolation Approach (SEA). All data from 2016 to 2020 are estimates based on the slope of decline previously observed.

A central graphic with a purple background. At the top, the word "Science" is written in white. Below it, the text "UNDETECTABLE MEANS UNINFECTIONIOUS" is written in white. In the center, the equation "U = U" is displayed in large white letters. Below the equation, there are two colored boxes: a pink one with "PrEP" and a green one with "PEP", separated by a white ampersand "&". A large blue arrow points downwards from this graphic towards the bottom center of the slide.
